Not your ordinary plants! Garden Solutions offers a fresh spin on garden favorites as well as collect-them-all succulent programs. If you're on the hunt for a new hook, look no further.

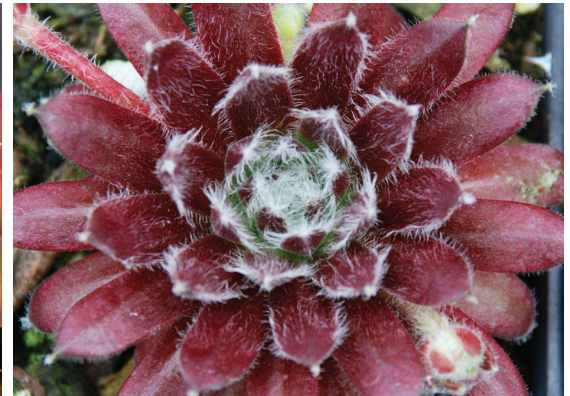

Collectable hardy succulents with new varieties introduced yearly. Perfect for exciting every generation about gardening. Nobody can settle for just one!

NEW for 2017

Chick Charms® 'Gold Nugget' ppaf

The World's first gold foliage sempervivum, 'Gold Nugget' has extreme vigor and is hardy in zones 3-8. Eye-catching gold color with dark pink edges is exclusive to the Chick Charms® program.

NEW for 2018

Chick Charms® Cosmic Candy™

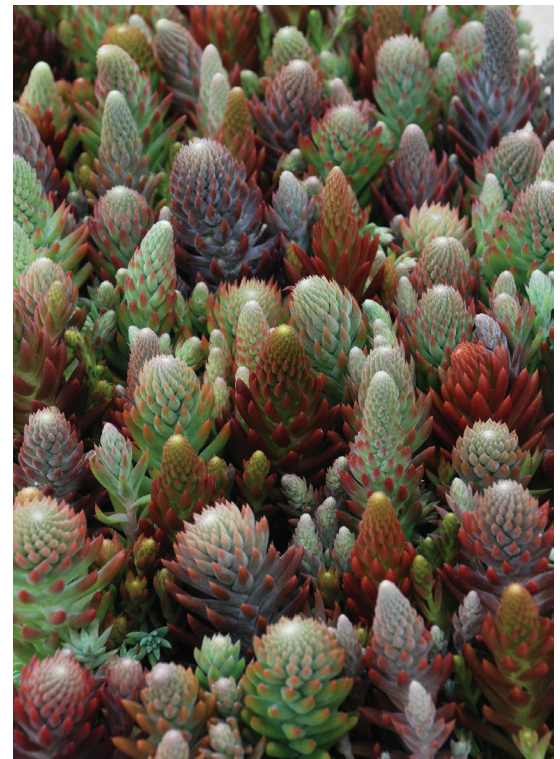

We're excited to launch Cosmic Candy™, a rare red cobweb sempervivum. Keeps red coloration all 12 months of the year and is hardy in zones 3-8.

*Coming
Spring 2018!*

You've heard of fairy gardens. Now get ready for GNOME GARDENS! Gnome Domes® are the newest gateway to get kids gardening. These colorful plants begin in spring as rosettes that elongate into "Gnome Domes." While plants look thorny, they're actually soft to the touch—like rubber magic fingers. The domes will elongate and eventually flower, holding their color through November. Plants are tender annuals but fun for all ages in all zones.

SunSparkler® Sedums are uniquely hardy, vigorous growing sedum hybrids bred by Garden Solutions owner Chris Hansen to introduce unconventional color into the drought-tolerant landscape.

NEW for 2018

SunSparkler® Sedum 'Plum Dazzled' ppaf

In 2018 'Plum Dazzled' joins the 7 other colorful SunSparkler® Sedums, bringing its dark purple leaves to the rock garden—a perfect foil for lighter color succulents. It is the darkest of the low-growing sedums (anywhere, not just in the SunSparkler® line. It has a mounding, low habit. Plants reach 18-22 inches across by 8 inches tall after 3 years and grow well in zones 4-8.

NEW for 2017

SunSparkler® Sedum 'Wildfire' ppaf

'Wildfire' sets gardeners hearts racing. This hot plant is a variegated sport of 'Firecracker', the best red leafed groundcover sedum. Leaves have the red center of 'Firecracker' with a contrasting hot pink edge. In partial shade conditions, the leaf edges turn a cream color. Thrives in zones 4-8 and will grow to be 22 inches across by 4 inches tall after 3 years.

Winter Thriller™

HELLEBORES

Add some sizzle to the winter and early spring landscape with Winter Thriller™ Hellebores. Deer-resistant, evergreen, and covered in single or fully double flowers in shades of green, burgundy, yellow, peach, white, and pink.

NEW for 2017

Winter Thriller™ Showtime Ruffles

This lovely lady has 3.5 inch fully double flowers with strawberry petal colors surrounded by a contrasting edge. Picotee edge detailing makes for a marvelous specimen. Blooms in early spring. Plants are deer-resistant, shade loving, and drought-tolerant.
